

## Atlas - Camping Lantern

### How to recharge the HybridLight Atlas using a USB cable:

1. Plug the cable into the micro USB port. Plug the other end of the cable into an A/C or D/C power source.
2. The LED indicator light on the Atlas will be red while charging and green when fully charged.

### How to recharge the HybridLight Atlas using natural or indoor light:

1. Be certain the Atlas is turned completely off. Turn the adjustable dimmer counter-clockwise until it clicks. This ensures the lantern is in the "off" position.
2. Place the Atlas under natural sunlight with the solar panel facing the sunlight. The RED indicator light will illuminate. The brighter the light source the faster Lantern will recharge.

### How to charge your mobile device

1. Plug the cable into the standard USB port.
2. Plug the other end of the cable into compatible mobile device.

3. Plug other non-micro USB cables into the USB port.

### Using your Atlas Camping Lantern

- Rotate the adjustable dimmer knob clockwise to brighten the Atlas.
- Rotate the adjustable dimmer knob counter-clockwise to dim the Atlas.
- Rotate the adjustable dimmer completely counter-clockwise until it clicks to ensure the lantern is completely off.

#### Indicator Light

- Green when fully charged
- Red when charging.
